this book synthesizes recent advances in our understanding of the  
psychology of courageous actions and related prosocial behaviors

while the virtues of physical courage and moral courage have a  
long history in ethics the courage to face personal psychological  
problems has never been fully integrated into the discipline  
psychological courage explores the ethical dimension and multiple  
facets of the virtue of psychological courage as dubbed by author  
daniel putman in this book putman outlines three forms of courage  
physical moral and psychological he defines psychological courage

as the courage to face addictions phobias and obsessions and to avoid self deception and admit mistakes this book analyzes what psychological courage is and upholds it as a central virtue for human happiness

courage refers to the willingness for risk taking and to move ahead in the presence of difficulties the purpose of this book is to present courage as the main foundation of understanding and training for mental health in the three life task areas described by adler work love and friendship it explores the meaning of each life task and problems of fear compensation or evasion as well as adlerian insight on socially useful attitudes of approaching the task under discussion socratic dialog boxes are included throughout each chapter to encourage the interactivity between the text and readers thought processes also included is a set of twenty two helping tools that were creatively designed for self exercise or to be used to help others uncover or acquire courage for those in the helping professions this text will be a unique and valuable handbook for not only working with and helping their clients but also for their own personal development

the keys to understanding and developing courage this groundbreaking book reveals that courage is more about managing fear than not feeling it and that courage can be learned the author explains that most courageous people are unaware of their own bravery and all of us have some form of courage in our lives now to start with the book is filled with illustrative examples studies and interviews from greenland to kenya and defines the types of individuals who demonstrate general personal and civil courage the author includes clear guidelines and suggestions for increasing our ability to be courageous includes guidelines that show how anyone can ramp up their courage quotient and develop the qualities that strengthen personal courage contains a wealth of examples and anecdotes of real world courage from a variety of cultures a prolific writer the author has a popular blog psychology today the author extols the virtues of personal courage and shows how to overcome fear and stand up for what is right

while the virtues of physical courage and moral courage have a long history in ethics the courage to face personal psychological problems has never been fully integrated into the discipline psychological courage explores the ethical dimension and multiple facets of the virtue of psychological courage as dubbed by author daniel putman in this book putman outlines three forms of courage physical moral and psychological he defines psychological courage

as the courage to face addictions phobias and obsessions and to avoid self deception and admit mistakes this book analyzes what psychological courage is and upholds it as a central virtue for human happiness

the oxford handbook of positive psychology is the seminal reference in the field of positive psychology which continues to transcend the boundaries of academia to capture the imagination of the general public almost 20 years after the first publication of this groundbreaking reference this new third edition showcases how positive psychology is thriving in diverse contexts and fields of psychology consisting of 68 chapters of the most current theory and research this updated handbook provides an unparalleled cross disciplinary look at positive psychology from diverse fields and all branches of psychology including social clinical personality counseling health school and developmental psychology several new chapters are included which highlight the latest research on positive psychology and neuroscience as well as growing areas for applications of positive psychology

in this follow up to the international phenomenon the courage to be disliked discover how to reconnect with your true self experience true happiness and live the life you want what if one simple choice could unlock your destiny already a major japanese bestseller this eye opening and accessible follow up to the compelling marc andreessen international phenomenon the courage to be disliked shares the powerful teachings of alfred adler one of the giants of nineteenth century psychology through another illuminating dialogue between the philosopher and the young man three years after their first conversation the young man finds himself disillusioned and disappointed convinced adler s teachings only work in theory not in practice but through further discussions the philosopher and the young man deepen their own understandings of adler s powerful teachings and learn the tools needed to apply them to the chaos of everyday life to be read on its own or as a companion to the bestselling first book the courage to be happy reveals a bold new way of thinking and living empowering you to let go of the shackles of past trauma and the expectations of others and to use this freedom to create the life you truly desire plainspoken yet profoundly moving the courage to be happy will illuminate your life and brighten the world as we know it discover the courage to choose happiness
